

Through the conventions, I have met not only a lot of people that run Savage Worlds but also some of the writers and developers of the line. It is a great system and I finally found some settings that I can sink my teeth into. My current favorites are Realms of Cthulhu and Battle for Oz, but I am also looking at The Last Parsec as a new setting to run in, perhaps converting some of my Star Drive Frontiers stuff into it. I have also run Dark Conspiracy in Savage Worlds as well as run some generic modern Savage Worlds.
