

Ron's True20 Page

True20 is a near perfect merging the mechanic I most enjoy and the simplicity that I really desire. In time, I hope to move all my gaming to this system. What I like about True20:

- **Simple Class System** - I love the simple class system. Reduces the amount of twinking and imbalance that comes from improperly designed classes.
- **No Prestige Classes** - The more I played other d20, the more I saw Prestige classes as more a hindrance than something cool. Some games did not have enough Prestige Classes, while others had too many poorly designed ones. Characters planned their character development based their prestige
- **Feats/Powers** - EVERYTHING IS A FEAT or a POWER.
- **No AoO**- I get the reason it exists but I still think AoO was one of the stupidest things about base d20.
